TOUCHING BASE PRESS RELEASE

Touching Base and Adapx Partner to Deliver Innovative Capturx Software for Digital Pens in Australia and New Zealand

Seattle, WA – October 16, 2009 – Adapx (www.adapx.com), the company that is changing the way mobile teams collect data and collaborate, today announced a strategic distribution partnership with Touching Base (www.touchingbase.co.nz), Australia and New Zealand's leading provider of data collection solutions. Touching Base will distribute the Capturx product line in Australia and New Zealand.

Capturx enables teams to automatically capture and integrate handwritten information on paper forms, maps, and notebooks into Microsoft Office and ESRI ArcGIS in the native formats. By combining the award-winning Capturx software for digital pen and paper software platform with Touching Base's expertise in digital devices, customers will boost their efficiency and bottom line by making field data actionable in a much quicker timeframe.

"After evaluating the current data collection offerings in the market place, it's obvious that Adapx offers a unique solution that creates an outstanding experience for end-users," said Christina Rogstad, CEO at Touching Base. "The Capturx product line coupled with Touching Base's excellent customer support will provide our customers with a data collection solution that meets the needs of today's enterprises and government agencies."

Using the Capturx product line, mobile workers can immediately share field data, improve collaboration and speed decision making, without the extra time and cost of scanning, sending, and transcribing paper – or deploying mobile computers or PDAs. Capturx software has significantly improved the way mobile teams fight fires, report on field assets, perform inspections, respond to emergencies, manage utilities, and track construction, among other field operations.

"To ensure the highest levels of customer service and satisfaction, we are pursuing a very focused distribution strategy," said Andrew Lee, VP of sales at Adapx. "As the recognized leader in data collection solutions, Touching Base is a natural partner to help Adapx meet the growing demand for digital pen solutions in Australia and New Zealand."

The Capturx product line is available from Touching Base today. For more information, visit www.adapx.com, call 649-0233-04737, or send email to info@touchingbase.co.nz.

ABOUT TOUCHING BASE

Touching Base brings together world leading software technology and the latest digital devices such as touchscreen kiosks, PDAs, and digital pens to deliver innovative solutions for clients on a diverse range of projects -- from large scale research studies and customer feedback surveys to conferences and events. Touching Base scans the world for the latest innovative technological products and customises them for the Australasian market. Their clients benefit by way of innovative solutions which can add real competitive advantage and value to their business. For more information, please visit www.touchingbase.co.nz.

ABOUT ADAPX

Adapx is changing the way mobile teams collect data and collaborate with Capturx™ software for digital pens. A broad range of industries and agencies use Capturx products as natural interfaces into Microsoft Office, GIS, and CAD systems through digital pens and voice. Teams can immediately collect and access data in native file formats and systems without the delay and cost of transcribing paper or deploying mobile computers. Adapx has strategic partnerships with Microsoft, Autodesk, ESRI, Lockheed Martin, In-Q-Tel, and works with standard digital pen technology from Anoto. For more information, please visit www.adapx.com, send email to sales@adapx.com, or follow Adapx on Twitter at www.twitter.com/Capturx. Capturx products are available on the GSA Schedule [GS-35F-0131R] or through ESRI.
